**ISSUE:**

Service Agreement with Concentra to provide Occupational Health Services.

**SYNOPSIS:**

Terminate Service Agreement with Work Care as the City's Medical Provider and enter into a Service Agreement with Concentra for Occupational Health Services.

**BACKGROUND:**

Work Care has provided occupational medicine for West Valley City employees for many years. The physicians and staff have specialized training in recognizing and treating injuries and illnesses resulting from typical workplace exposures and have over the years performed their duties in a satisfactory manner.

However, for a variety of reasons our workforce has demanded greater levels of cooperation with our medical provider. The medical provider must be able to earn our employees and trust which is not only crucial to recovery but essential to cooperation.

Concentra Health Services, located in West Valley City has provided occupational health services for over 27 years. Concentra is highly qualified and well positioned to provide the clinical care, physical examination, drug/alcohol testing and physical ability testing we require. Most important, Concentra will integrate our return to work program to ensure competency, objectivity, and assist us in advocating costly lost work time or time delays in identifying modified job duties for injured workers.

**RECOMMENDATION:**

Approve Service Agreement with Concentra Health Services.
